The citrus expo in Columbia, SC on Saturday was an extremely well organized, EXCELLENT event. Special thanks to Stan, Tom, Jeff, and Joe for all their hard work to make the event so successful; and to Jeff, Bob, and Andy for their dedication as judges! Instead of enjoying the speakers, they tallied results and facilitated the gathering with thoughtful attention to every detail. Your dedication was noted and truly appreciated!

The fruit competition (well over 100 entries) and plant sale were exceptional venues for: tasting hardy citrus, obtaining seeds from extremely rare fruit, and purchasing hardy citrus plants. All speakers relayed invaluable experiences (Mr. Neighbors provided Satsuma and unique Chinese Sweet Lime fruit samples for those interested!!) and I learned about and tasted 😊 a Taiwaniquat fruit that Kathy D's neighbor is successfully growing in VA Beach.

FANTASTIC!!!

We also stopped by to see Tom McCleandon on the way home and he gave Jeff Stevens and I a tour of the palms of Madison GA. Thanks Tom.

Here is the link to those pictures.

I would also like to thank everyone who made this possible. A very enjoyable day.

Here are a few photos I took:

Looks like your fruit are much more colored up than what was in our Beaumont, TX show last week. I am impressed.

Now, Keith, you need another citrus plant like I need another palm. I can only imagine

what your back seat/trunk looked like coming home.

How'd mom like the trip?

C- You're absolutely right!! What are ya gonna do when Ned is selling such beautiful plants (YES! the ones I NEEDED). I only came home with three more...lol 😊

Mom and Zac and I had a blast. She loved Riverbanks Zoo and the Expo. You can see her on the left (in the red and white top with the black jacket) in Will's photos labeled "winners of the raffle" and "the big winner".

Your new greenhouse is so ideal. Will it be full when the cold temps set in or is there space for "future growth" 😊

Happy TG!!
